20 <http://www.acm.org/ubiquity/book/JohnsonChap4.pdf>

Size: 889.56KB MIME type: application/pdf

Computer-based products and services use text in a variety of ways: in status, error, and messages displayed by software for the users' benefit; in labels for settings; in labels for values of settings; in names of commands in menus and on buttons; in brief instructions to guide users through important steps; and, of course, in the names users assign to data files and objects. This is bad in two respects: (1) users don't know what authentication" ...
